

Changes to the EYFS for Childminders in 2024

There will now be two versions of the EYFS: one for childminders, and one for group and school-based providers. Make sure you are referring to the right version for you when you need to.

Childminders must:

- ensure your setting's safeguarding policies and procedures include all electronic devices with imaging and sharing capabilities, not just mobile phones and cameras.
- check all level 2/3 staff members hold a valid PFA certificate, otherwise they should not be included in ratio

Childminders should know that:

- settings will no longer be required to provide opportunities for children to develop and use their home language in play and learning – consider what the best way to support children in your setting
- you will no longer be required to complete training on the EYFS before registration
- where judged appropriate by a childminder, childminding assistants can now fulfil the role of key person for a child
- childminders with open plan kitchen-living areas can now utilise safely useable areas within this room for their provision
- all level 2/3 staff members should hold a valid PFA certificate, otherwise they should not be included in ratio
